

JONNALAGADDA VENKATA MAHESH

AI/ML Engineering Aspirant

Tiruvallur, Chennai, India | +91 93912 29622 | vm479012@gmail.com

LinkedIn ↗ | GitHub ↗

CAREER OBJECTIVE

Third-year B.Tech (CSE - AIML) student with hands-on experience building machine learning and NLP-based solutions through internships and academic projects. Proficient in Python and core data structures & algorithms, seeking an AI/ML Engineer internship or entry-level role to apply and grow technical skills in real-world applications.

EDUCATION

Prathyusha Engineering College

Chennai, India

B.Tech, Computer Science & Engineering (AI & ML) — 2024 – 2028 (Expected)

CGPA: 7.96 (till 4th Semester)

Intermediate (10+2)

Andhra Pradesh

2022 – 2024 | Percentage: 90.9%

Secondary School Certificate (10th Standard)

Andhra Pradesh

2021 – 2022 | Percentage: 89.9%

INTERNSHIP EXPERIENCE

ML Intern — Cognifyz Technologies

Remote

Ongoing (Expected completion: August 30, 2026)

- **Restaurant Recommendation System** ↗ — Built a recommendation engine to suggest restaurants based on user preferences.
- **Restaurant Location Analysis** ↗ — Analyzed restaurant location data to uncover trends and geographic insights.
- **Restaurant Rating Prediction** ↗ — Developed a machine learning model to predict restaurant ratings from key features.

AI Intern — Code Alpha

Remote

Stipend-based Internship | Completed | Certificate & Letter of Recommendation (LOR) Awarded

- Built a language translation tool using Natural Language Processing (NLP) techniques to convert text between languages.
- Implemented and tested Python-based ML/NLP models, handling data preprocessing, model integration, and output evaluation.
- Collaborated remotely with the Code Alpha team, following task deadlines and submitting project deliverables.

AI Intern — Codec Technologies

Remote

June 25, 2026 – July 25, 2026 | Certificate of Completion Awarded

- Completed a hands-on internship focused on Artificial Intelligence, applying core AI/ML concepts to practical tasks.
- Worked on AI-based problem-solving assignments using Python, strengthening applied understanding of machine learning workflows.
- Received a certificate of completion for successfully fulfilling internship requirements.

PROJECTS

Iris Flower Classification ↗ | Python, scikit-learn

- Developed a supervised machine learning model to classify iris flower species based on petal and sepal measurements.
- Applied data preprocessing, feature analysis, and classification algorithms (e.g., KNN/Decision Tree) using Python and scikit-learn.
- Evaluated model performance using accuracy and confusion matrix metrics.
- Deployed an interactive live demo of the classifier (linked above) for real-time predictions.

Language Translation Tool ↗ | Python, NLP

- Designed an NLP-based tool to translate text between languages as part of the Code Alpha AI internship.
- Focused on text preprocessing, tokenization, and translation logic using Python libraries.

Object Detection and Training ↗ | Python, Machine Learning

- Built an object detection model as part of the Code Alpha AI internship, training it to identify and classify objects in images.
- Handled dataset preparation, model training, and performance evaluation using Python-based ML tools.

TECHNICAL SKILLS

Programming Languages: C, Python, Java (Basics)

Frontend: HTML, CSS, JavaScript

Core Concepts: Data Structures & Algorithms (Basics), Machine Learning Fundamentals, NLP Basics, Internet of Things (IoT) Basics

Tools & Libraries: scikit-learn, Python ML/NLP libraries, Git, GitHub

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Certification — Introduction to Internet of Things (IoT) — Elite
- NPTEL Certification — Joy of Computing using Python — Elite + Silver
- AI Internship Certificate — Codec Technologies (June – July 2026)
- AI Internship — Code Alpha — Completed | Certificate & Letter of Recommendation (LOR) Awarded

ADDITIONAL INFORMATION

- Actively pursue stipend-based internships via Unstop to build practical, real-world AI/ML experience.
- Strong interest in Artificial Intelligence, Machine Learning, and problem-solving through coding.
